

Single Molecule Club Meeting

27 November 2015

13:30 - 16:00, followed by food and drinks

Level 4, Lowy Cancer Research Centre, UNSW

Ian Grainge (University of Newcastle)

Replication fork collapse and processing in *Escherichia coli*

Lisanne Spenkelink (University of Wollongong)

Single-molecule fluorescence studies of the *E. coli* DNA-replication machinery

Sophie Pagoon (UNSW)

Nanoscale clustering of the T cell receptor regulates T cell signalling efficiency

James Walsh (UNSW)

Control of prokaryotic cell division by Turing patterns
